

## What is a Vision Board?

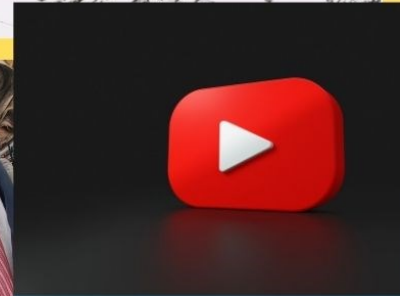

**A Visual Plan of Action that should include a deadline!**

A Vision board is your road map for success. It helps you to keep your eyes on where you are going. You can take steps towards a focused goal. Once complete, you can scratch it off of your vision board. When you complete everything, you can even make a new vision board with new goals to accomplish. Go for it!

- 1. Get a poster board, magazines, and glue, maybe even some decorative collage items.**
- 2. Think about what you want to accomplish.**
- 3. Find photos that represent these things.**
- 4. Organize these things on your poster board in a way that makes sense for you.**
- 5. Think about a realistic timeframe that you want to accomplish these things in.**
- 6. Hang your vision board on your wall in a place that you will see it daily. Let this be a reminder to you of what your goals are.**
- 7. Start executing a plan to accomplish your vision.**
